

Lash Lift and Tint After Care Instructions

AVOID THE LIST BELOW FOR THE FIRST 24 HOURS

- No Heat
- No Steam (including cooking over stovetop)
- No Saunas
- No Water
- No Oils
- No Lotions, Creams, Shampoos or Facewashes
- No Makeup Remover wipes or pads
- Do NOT rub the eyes
- No Mascara

Your lashes will still be shapeshifting for the first 48 hours, a side sleeper or a face sleeper will notice that one or both eyes can raise and drop, leaving the lashes misshaped.

Sleeping on your back is best.

Stay away from face washes that are mainly oil based, this will cause the lashes to drop prematurely.
